VOCOPro®

Trusted by Professionals Since 1991

EFFECTIVE DATE: JANUARY, 2024

2022 VocoPro/NuVoice

General

This price list supersedes all previous price lists issued by VocoPro. VocoPro's terms and conditions of sale (including prices) may be changed by VocoPro at any time, in its discretion, without prior notice.

Same day shipment: Orders requesting same day shipment will ship via UPS Next Day Air at dealers expense. However, your order MUST be received by 11:00 A.M. Pacific Standard Time on the business day it is to be shipped.

Annual requirement: In order to maintain an active account status, a VocoPro Dealer must purchase a minimum of \$5,500 in VocoPro Product, directly from VocoPro during the fiscal year (Jan 1 – Dec 31)

Collection of Past Due Amounts: Dealer agrees to pay VocoPro all costs and fees, including but not limited to returned check fees, collection agency fees, attorneys' fees and court costs, incurred in the collection of any balance on dealer account.

E-Commerce: Dealers may sell new products directly on internet auction sites. All VocoPro Sales and Map policies still apply. Used products are not subject to VocoPro's Sales and MAP policies, but they must be clearly identified as such in all dealer communications.

Trans-shipping: Dealer may not ship product to another dealer or distributor for resale without VocoPro's written authorization.

Geographic limit: Dealer may not sell VocoPro product outside the United States without VocoPro's written authorization. VocoPro has a prepaid freight policy for dealers and distributors.

Freight Minimum Policy

The minimum for Dealer is \$3,000 per shipment per location. The minimum for Distributor is \$10,000 per shipment per location. This amount must be the full invoiced amount and does not include any back orders. **VocoPro does not pay the freight on any back orders. Customers are welcome to add additional items on the back order to meet the minimum prepaid freight requirements. The prepaid freight does not include charges on any C.O.D. tags. Customer is responsible for this charge.**

Tracking Numbers

If your order is shipped using UPS, we can send e-mail confirmation (tracking numbers) to a maximum of one e-mail address. Please be sure we have your correct e-mail address by including them on your purchase orders. Additional tracking number requests will be responded to within a 24-hour period, via fax or e-mail, unless the maximum time allowed for receipt of a package (example: 2-day, 3-day, 3-5 business days ground, etc.), plus processing time from VocoPro has been exceeded.

Return Policy

VocoPro requires an RA number before returning any merchandise to the manufacture. An RA number is valid for 90 days from the date issued. Merchandise being returned for credit must be received by VocoPro within 1 year of the purchase date. Merchandise returned within 90 days of invoice date will receive full credit. The merchandise must be in new condition- unused and undamaged in any way and returned in its original packaging. All returns received without original packaging will be charged a 15% restocking fee. In addition, all merchandise returned after 90 days from the invoice date will be charged a 15% restocking fee. Non-salable merchandise will not be accepted and will be returned to dealer at dealers expense. Closeout and discontinued merchandise cannot be returned.

Pricing Policy

Minimum Advertised Price Policy

Effective January 1, 2016, VocoPro Professional Vocal System (VocoPro) has unilaterally adopted this Minimum Advertised Price ("MAP") Policy. This MAP Policy supersedes all previous MAP policies. This MAP Policy is designed to: (1) protect VocoPro's reputation for superior technology and quality products; (2) protect dealer and reseller margins so that dealers and resellers are able to provide valuable pre-sales and post-sales services and infrastructure; (3) support VocoPro as a premium offering; and, (4) avoid destructive intra-brand channel conflict. VocoPro's policy is to not do business with dealers or distributors that advertise covered products at prices below MAP or advertises in any other way that violates this policy. This MAP Policy governs only advertised prices. It does not apply to the price at which the VocoPro products are actually sold. Dealers and resellers remain free to establish their own resale prices. This MAP Policy applies to all authorized VocoPro dealers and resellers in the United States. It applies to all advertisements or other published information or communications that reference VocoPro products. Advertisements include advertising in any form of media (such as flyer's, mailings, print ads, signage, radio, television, internet, social media and broadcast e-mailings) except advertisements inside a brick-and-mortar store. Online advertising specifically includes any communication of price accessible by a web crawler.

VocoPro's MAP Policy Guidelines:

The current listing of VocoPro products and applicable MAPs are set forth in the applicable price list. MAPs will not apply to discontinued VocoPro products beginning 90 days after the date VocoPro announces the discontinuation. VocoPro products in any condition other than "New" may only be advertised online on the Dealers' own URL. MAPs also will not apply to used or refurbished product provided that any advertisement for such product conspicuously and properly designates the condition of the product as follows:

New: any VocoPro product in its sealed packaging with original labeling that has not been removed or intentionally altered in any way may be advertised as "New".

Refurbished: any VocoPro product purchased directly from VocoPro that is sold by VocoPro in other than "New" condition must be designated as "refurbished" in all advertising

Used: any VocoPro Product not in original packaging or that has been previously used for any purposes (e.g., B-stock, C-stock, open box, demo stock, new-other, etc.) must be designated as "Used" in all advertising.

VocoPro authorized dealers and resellers may advertise VocoPro Products in the following manner without violating this MAP Policy: Advertising without prices;

Orally stating a price (either in person or in response to an end-user's call);

Advertising free shipping, handling or financing provided such value is not subtracted from the VocoPro Product to show a net price below MAP;

Featuring multiple VocoPro Products covered by this MAP Policy in the same advertisement as long as the advertised price for each is not below the MAP; or, if bundled, the advertised price is not below the combined MAP of the advertised products;

Bundling a VocoPro Product covered by this MAP Policy with a VocoPro product that is not covered by this MAP Policy or with a non-VocoPro product (including gifts); provided, however, that the bundled price is at least 10% above the MAP. If the bundle includes a gift card or similar item, the advertisement must specify that the gift card can only be used on subsequent purchases.

However, advertising material stating or implying the availability of a price below the MAP is a violation of this MAP Policy. Examples of such advertising include, without limitation, those showing the following:

"prices too low to mention"

"our manufacturer won't let us tell you the price"

"a price showing a stricken MAP (example: \$339.00)"

"call for price" (where the MAP price appears in the advertisement)

"click here for better price"

"add to shopping cart to see a lower price"

"sale – add to shopping cart", "enter coupon code" (unless such code expressly refers to a VocoPro authorized coupon)

"e-mail for price"

"buy it now" (or comparable instant purchase price, unless such price displays the MAP)

"reserve or minimum price" (unless such price displays the MAP)

"make an offer"

"give us your best offer"

It shall not be a violation of this MAP Policy to advertise that a customer may 'call for price' or 'email for price', or to use similar language, specifically with respect to VocoPro Products, so long as no price is listed.

VocoPro authorized dealers or resellers may not sell VocoPro Products to any third party where the dealer or reseller has reason to believe that such VocoPro Products will be advertised, or such third party will engage in advertising, in violation of this MAP Policy. Any such sale shall constitute a violation of this MAP Policy.

Efforts to evade this MAP Policy will also be considered a violation.

Communications:

Each Dealer is free to decide independently whether or not to follow this MAP Policy. VocoPro will not discuss any conditions of acceptance related to this MAP Policy. This MAP Policy is non-negotiable and will not be altered for any dealer or reseller. Accordingly, VocoPro's decision not to deal with violations of this MAP Policy is irrevocable and will not be changed in any way.

This MAP Policy is a unilateral policy and VocoPro does not ask for, and will not accept, any assurance of compliance or any agreement thereto. VocoPro sales personnel have no authority to modify this MAP Policy, grant exceptions, offer, or accept any agreements to comply with it. Dealers with comments or questions may submit them in writing to: tony@vocopro.com

Monitoring and Reporting:

VocoPro will not review advertising in advance to determine compliance or otherwise approve any plans submitted to VocoPro. Nevertheless, in order to further the goals of this MAP Policy, VocoPro may monitor advertised prices of VocoPro Products, either directly or via independent third parties. Third parties retained by VocoPro may monitor advertisements and store/website selling conduct including, but not limited to, through the use of mystery shoppers, purchases of covered products, and review of advertised prices.

Confidentiality:

This MAP Policy is VocoPro's confidential information and may not be disclosed to other parties or in advertisements. It is disclosed to you under the confidentiality provisions of your authorized dealer or reseller agreement with VocoPro.

MAP Violation Implications:

VocoPro will notify a VocoPro authorized dealer or reseller if the dealer or reseller violates this MAP Policy. VocoPro reserves the right to provide a 24 hour grace period on any violation; however, a 24 hour grace period will not be provided if it's a reoccurrence of the same violation unless the error was on the part of VocoPro.

When we receive your purchase order, we will check online for those particular products and if it is under MAP, we will notify you that we cannot honor the order until the item is advertised at MAP. Upon receiving the warning, you will have a period of 24hrs to correct the violation.

First violation of MAP will result in suspension of access to the violated product of VocoPro for a period of 30 calendar days.

After which we will check your website again and if it is still advertised below MAP, we will extend it 90 additional days.

The third MAP violation will result in a permanent ban of purchasing that item.
